POLICE REPORT.—Last night was cloudy and rainy. Fifteen prisoners and one lodger were at the station house. Mayor Strauss this morning disposed of the following cases:

Frank Conway, colored, charged with stealing a pair of shoes from Doc Gray, also colored, and for being drunk on the street, was fined \$5 for the first offense and \$2.50 for the last. Two citizens for permitting nuisances on their premises were ordered to have the same abated.

A white man, for being drunk and disorderly, was fined \$2.50. Armstead Harris, colored, charged with throwing missiles in the street, was fined \$1.

Half a dozen colored boys for playing ball in the street were fined 50 cents each.

Fleet Davis, colored, for being drunk and disorderly, was fined \$10. Three colored men for playing crap were fined \$5 each.

Annie Sims, colored, for disorderly conduct, was dismissed.

A young man for assault was fined \$5. Lem Washington, colored, a suspicious character, without a home, was sent to jail for 30 days, subject to the chain gang.

Three colored men charged with disorderly conduct were fined \$2.50 each. A man charged with being drunk on the street was dismissed with a reprimand.

SCHOOL CLOSING.—The closing exercises of the Misses Greene's school were held Thursday evening at their residence on Washington street. A report of the year's work was read and certificates of distinction were bestowed on those who had attained 80 per cent. in their daily recitations. Also certificates of examination in the various studies, many of the pupils attaining over 90 per cent. Prizes were awarded to pupils who made the highest grade in both daily recitation and examination. Gold medals to Miss Rebecca Washington and Miss Lila Milburn. Silver medals to Misses Lillian Entwistle, Bertha Crymes and Lou Lockey. Books to Misses Mary Field, Ruth Smith, Helen Muir, Rena Kaufman, Alice Chinn, Zaidie Lindsey and Florence Davidson.

In the primary department to Misses Lucy Douglas and Mary Leadbetter. For punctual attendance, silver medals to Misses Lila Milburn, Helen Muir, Etta Cox and Mary Thomson, they not having been absent a day during the session.

EXPLOSION OF A GASOLINE STOVE.—The fire alarm about half-past nine o'clock this morning was caused by the explosion of a gasoline stove at the residence of Mrs. A. D. Warfield, on south Alfred street, near Franklin. Mrs. Alice Ward, daughter of Mrs. Warfield, was engaged at the time in filling the reservoir of the stove when from some accident an explosion followed, burning Mrs. Ward on the face and hands. She managed to get the stove into the yard, not, however, until the floor had been set on fire. Mrs. Warfield, who was in an upper room at the time, hurried down stairs to her daughter's rescue and was burnt on the face and arms in endeavoring to extinguish the blaze in the floor. Fortunately she did not inhale the fire. Dr. Klipstein rendered the necessary surgical aid. The damage to the house was slight.

WON'T STAY HOME.—Ada Page, colored, aged twenty-two years, living in this city, is giving Sanitary Officer Frank, of Washington, no end of trouble. She persists in running away from her home and going to that city, where she always gets into trouble. She has been sent to the workhouse several times, and was at one time examined by the police surgeons for insanity, but was pronounced to be in her right mind. Two weeks ago she was sent to the workhouse for vagrancy, and on Wednesday was sent to her home under charge of Officer Graff. The following day she ran away from home, and yesterday was found near the Long bridge, where she had fallen in a fit. She is now at Emergency Hospital, and the authorities are at a loss to know what to do with her.

NARROW ESCAPE.—While several youths were playing on the corner of Duke and St. Asaph streets yesterday evening a rifle in the hands of Frank Schaefer was accidentally discharged and over twenty of the shot in the cartridge, with which the weapon was loaded, struck Hugh Moss, son of Mr. Thos. Moss, just between his temple and eye, inflicting a very painful wound. The boy was taken to his home where he was attended by Dr. O'Brien. This is another result of the careless handling of fire-arms by boys.

PERSONAL.—Mr. J. S. Blackburn has gone to Charlottesville to spend a part of his vacation.

Mr. Legh W. Reid, of this city, has accepted a position as instructor in mathematics at Princeton College. Mr. Reid received the degree of Bachelor of Science from the V. M. I. class of '87, and the degree of Bachelor of Arts from Johns Hopkins University, class of '89, and during the past session has taken a post-graduate course in mathematics at the latter institution. By his high attainments in his special field of study, he is well qualified for the duties of the responsible position to which he has been called.

Rev. B. F. Benson, father of the present pastor, will occupy the pulpit of the M. P. Church to-morrow. Mr. B. was pastor of this church twenty-four years ago.

DANCE.—Despite the inclement weather the dance given at the Old Dominion Boat House, last night, was one of the most enjoyable of the season. The members of the club were out in full force, as were also their lady friends, and at the close, it was with great reluctance that all left for their homes. Among those present were Mrs. L. W. Reid, Mrs. Davis, Mrs. Miller, Mrs. Dunn, Mrs. L. Marbury and Mrs. Geo. Uhler, chaperones, and Misses Corse, Sallie Daingerfield, Margaret Brogden, Rebecca Brogden, Reid, Ramsay, Herbert, Johns, Easter, Miller, Prescott, Robinson, Mai Uhler, Acton, Rebecca Daingerfield, Annie Uhler and Kate Uhler.

NEW FERRY LINE.—A new ferry is to be established between this city and Washington on Monday next by the placing on that line of the steamer Florence, which has been recently re-jugated at the ship yard. She will make seven round trips each day from Lannon's wharf, the first boat leaving this city at 8 a. m. and the last at 9:30 p. m. The boat will stop at Buena Vista both ways. At that place there are flying horses, ten-pin alleys, shooting galleries and all the other adjuncts of an excursion resort.

KNIGHTS TEMPLAR.—At a regular meeting of Old Dominion Commandery K. T., last night the following officers were elected for the ensuing year: J. E. Alexander, E. C.; W. M. Smith, G.; J. H. Fisher, C. G.; T. H. Netherland, P.; C. A. Simpson, S. W.; L. C. Barley, J. W.; G. F. Steiner, Treasurer; K. Kemper, Recorder; W. T. Tracey, Standard Bearer; H. A. Downham, Sword Bearer; F. L. VanAuken, W., and Jas. Grigg, S.

THE MARKET to-day was fairly well supplied with country produce and vegetables in season. Prices have changed but little since last Saturday and we quote: Butter 25 cents a pound, eggs 18 to 20 cents a dozen, tomatoes 10 to 20 cents a box, peas 30 cents a peck, potatoes 40 cents a bushel, onions and radishes 2 cents a bunch, &c. The butchers had fair supplies of fresh meats which sold at unchanged prices. There was also a fair supply of salt water fish.

Excursion Resorts on the Mount Vernon Electric Railway.

The number of excursion resorts on the Potomac will be increased this season by the delightful place the Washington, Alexandria and Mount Vernon Electric Railway Company is fitting up at Little Hunting creek, about six miles below this city. The locality seems specially adapted by nature for such a purpose. The natural scenery is superb, the water from the wells ice-cold and the purest in the country, while the fragrance from the magnolias and wild flowers permeates the atmosphere and renders the spot delightful in every sense of the word. A large pavilion has already been erected in a situation commanding a view of both the river and creek, and merry-go-rounds, roller coasters, arbors, swings and every other adjunct to a first-class summer resort are to follow. Besides there are to be baseball grounds, boats for sailing and rowing, fishing tackle and the other necessities for pleasant and exhilarating outing. The neighborhood of Little Hunting creek, especially that binding on the electric railway is to undergo a metamorphosis during the summer. The railway company have erected a spacious platform at the station which is to be followed by an equally spacious building for the use of passengers. A roadway has been cut through the grove on the east of the track over which a plank walk is to be placed, which with other wooden paths will meander through the pleasant forests to a high bluff which rises many feet from the creek and which commands an uninterrupted view of the Potomac as far down as Gunston, the historic Mason mansion. Apart from the improvements which have been made and those in progress, the spot, minus all artificial adornments, is one of the most suitable for a carnival. The placid creek which winds its way along the banks of the Mount Vernon estate, abounds in fish and game, while the blue Potomac on the other hand presents a moving panorama for the eyes to feast upon continually, and the invigorating breezes from its bosom are wafted through the foliage, the growth of centuries. Already persons have erected tents upon the banks of the creek and intend spending the summer amid nature's scenery listening to the warble of the feathery tribe and quaffing the pure country air. The distance from this resort to Alexandria is short, passengers making the journey in a spacious and handsome electric car in fifteen or twenty minutes. For a day's relaxation from the heat and bustle of a city no more pleasant place could be selected. Excursionists from Washington can make the trip in less than an hour by taking either the cars of the Washington Southern Railway or the ferry boat to this city. Electric coaches connect with the arrival and departure of both cars and boats throughout the day and long into the night. Cars run to the creek every twenty minutes, thus avoiding the usual delays sometimes occasioned in awaiting the departure of steamboats.

The "Dyke," another resort on the electric road, which always was a popular objective point for a day's fishing or gunning, attracts numbers daily. This well-known spot is the Adirondacks of Alexandria. It abounds in thick forests, creeks, lakes, hills and dales. People visit it at all seasons, especially now, when fishing thereabouts is good, and when a fire can be made and cooking conducted a la camp life. Benches have been placed in the pleasant groves and other conveniences are contemplated for those who prefer to spend the mild weather among the wilds of nature. It costs only five cents to go to the Dyke, and the trip can be made in ten or twelve minutes, while a year ago it took hours of hard work to reach the spot in a rowboat, it being almost inaccessible to vehicles.

A Building and Loan Association honestly conducted, not confined to one locality and therefore in a position to regulate the supply and demand of funds, keeping no money idle, compounding premiums, interest, and miscellaneous sources of profit can earn more money for you than any other form of safe investment. Because you do not understand you may not believe it. As a prudent and intelligent man investigate the plans of the Southern Mutual Building and Loan Association, one of the oldest and strongest of the national associations. A. A. WARFIELD, Local Secretary and Treasurer, or L. W. CORBETT, Local Agent, will give full particulars.
